

2014 APC/PCUG Meeting

Hosted by LGE/KU

July 16 - Wednesday: PCUG Meeting									
8:00	Registration (Continental Breakfast in Sunflower Room)								
8:00-8:15	Welcome - A Culture of Safety by Carla Piening, LGE-KU in Daisy Room								
8:15-9:00	LGE-KU's Environmental Compliance and Construction Program by John Voyles, LGE-KU, VP Transmission/Generation Services								
9:00-9:30	Break in Sunflower Room								
9:30-12:00	You Speak (Focus on 1-3 major issues w/ your control equipment) moderated by Carla Piening, LGE-KU								
12:00-12:15	PCUG Website and Database Update by Gary Reinhold, Reinhold Environmental								
12:15-1:15	Lunch in Fountain Room								
	<table border="1"> <thead> <tr> <th>Particulate Control Track I in Jasmine Room</th> <th>Scrubber Track II in Daisy Room</th> </tr> </thead> <tbody> <tr> <td>1:15-1:45 Combustion Effects on AQCs by Mark Cochenour, FirstEnergy</td> <td>FGD Dewatering by Ryan Edwards, TVA</td> </tr> <tr> <td>1:45-2:15 Cliffside PJFF by Scott Williams, Duke Energy</td> <td>Southern Company FGD Lessons Learned by Ann Palmer, Southern Company</td> </tr> <tr> <td>2:15-2:45 Recent PJFF Experience by Haley Turner, LGE-KU</td> <td>Discussion moderated by Steve Wolsiffer and Ron Richard, REC * How FGD slurry sulfites correlate to ORP in various scrubber operating conditions * How other operating parameters affect the relationship (i.e. varying gas flows, SO₂ removal, inlet SO₂ concentration, oxidation air flow rate, pH) * Experience using ceramic/silicon carbide materials of construction in FGD slurry recycle pumps</td> </tr> </tbody> </table>	Particulate Control Track I in Jasmine Room	Scrubber Track II in Daisy Room	1:15-1:45 Combustion Effects on AQCs by Mark Cochenour, FirstEnergy	FGD Dewatering by Ryan Edwards, TVA	1:45-2:15 Cliffside PJFF by Scott Williams, Duke Energy	Southern Company FGD Lessons Learned by Ann Palmer, Southern Company	2:15-2:45 Recent PJFF Experience by Haley Turner, LGE-KU	Discussion moderated by Steve Wolsiffer and Ron Richard, REC * How FGD slurry sulfites correlate to ORP in various scrubber operating conditions * How other operating parameters affect the relationship (i.e. varying gas flows, SO ₂ removal, inlet SO ₂ concentration, oxidation air flow rate, pH) * Experience using ceramic/silicon carbide materials of construction in FGD slurry recycle pumps
Particulate Control Track I in Jasmine Room	Scrubber Track II in Daisy Room								
1:15-1:45 Combustion Effects on AQCs by Mark Cochenour, FirstEnergy	FGD Dewatering by Ryan Edwards, TVA								
1:45-2:15 Cliffside PJFF by Scott Williams, Duke Energy	Southern Company FGD Lessons Learned by Ann Palmer, Southern Company								
2:15-2:45 Recent PJFF Experience by Haley Turner, LGE-KU	Discussion moderated by Steve Wolsiffer and Ron Richard, REC * How FGD slurry sulfites correlate to ORP in various scrubber operating conditions * How other operating parameters affect the relationship (i.e. varying gas flows, SO ₂ removal, inlet SO ₂ concentration, oxidation air flow rate, pH) * Experience using ceramic/silicon carbide materials of construction in FGD slurry recycle pumps								
2:45-3:15	Break in Sunflower Room								
3:15-4:00	Discussion: Emissions Testing Challenges/Lessons Learned Relative to MATS moderated by Doug Hartman, FE								
4:00-5:30	Panel I: An Open Discussion of FGD/Boiler Additives moderated by Pam Orlando, LGE-KU Panelists: TBD								
July 17 - Thursday: PCUG Meeting									
7:00-8:00	PCUG Steering Committee Meeting (Breakfast included) in Rose Tulip Room (behind Sunflower Room)								
8:00	Registration (Continental Breakfast) in Sunflower Room								
8:00-9:30	Panel II: DSI Issues moderated by Chad Donner, Duke Energy (tentative) / Panelists: TBD								
	<table border="1"> <thead> <tr> <th>Particulate Control Track I in Jasmine Room</th> <th>Scrubber Track II in Daisy Room</th> </tr> </thead> <tbody> <tr> <td>9:30-10:00 Recent ESP Improvements by John Walker, Duke Energy</td> <td>FGD Chemistry as Related to MATS by Chuck Dene, EPRI</td> </tr> <tr> <td>10:30-11:00 Southern Company Particulate Experience by Noah Meeks, Southern Company</td> <td>O&M for FGD Recycle Pumps by Ron Laws, Duke Energy</td> </tr> </tbody> </table>	Particulate Control Track I in Jasmine Room	Scrubber Track II in Daisy Room	9:30-10:00 Recent ESP Improvements by John Walker, Duke Energy	FGD Chemistry as Related to MATS by Chuck Dene, EPRI	10:30-11:00 Southern Company Particulate Experience by Noah Meeks, Southern Company	O&M for FGD Recycle Pumps by Ron Laws, Duke Energy		
Particulate Control Track I in Jasmine Room	Scrubber Track II in Daisy Room								
9:30-10:00 Recent ESP Improvements by John Walker, Duke Energy	FGD Chemistry as Related to MATS by Chuck Dene, EPRI								
10:30-11:00 Southern Company Particulate Experience by Noah Meeks, Southern Company	O&M for FGD Recycle Pumps by Ron Laws, Duke Energy								
10:00-10:30	Break in Sunflower Room								
10:30-11:00									
11:00-11:45	Panel III: Boiler to Stack - AQCS Inter-related Process Control moderated by Ed Healy, Southern Company / Panelists: Dave Cochenour, FE; TBD								
11:45-12:30	Panel IV: Process Monitoring moderated by Grant Hilbers / Panelists: Doug Hartman, FE; TBD								
12:30-1:30	Lunch in Fountain Room								
1:30-2:15	Mercury Measurement Errors by Angela Zevely, LGE-KU								
2:15-3:00	You Speak cont. (Focus on 1-3 major issues w/ your control equipment) moderated by Doug Hartman, FE								
3:00-3:15	Last Man Standing Door Prizes and Passing the Bell to Southern Company by Darryl Wall, Southern Company
